

HYDRAULIC External Pipe Clamp

FEATURES

- -Available for pipe sizes 20''-120''.
- -Hydraulic jack is available upto 50 Tons.
- -High tonnage clamping force.
- -Hinged segments enhance flexibility and handling of large diameter pipes.
- -Simple, quick, and easy touse.
- -Made of St-52 quality steel.
- -Each clamp is suitable for a certain diameter from 20'' to 120''.

- No Tack type has arched cross-beams to permit continuous welding without removing the clamp.

Descripton	Weight
20" Hydraulic External Clamp	50 kg
22" Hydraulic External Clamp	55 kg
24" Hydraulic External Clamp	60 kg
26" Hydraulic External Clamp	70 kg
28" Hydraulic External Clamp	75 kg
30" Hydraulic External Clamp	80 kg
32" Hydraulic External Clamp	100 kg
34" Hydraulic External Clamp	105 kg
36" Hydraulic External Clamp	110 kg
40" Hydraulic External Clamp	132 kg
42" Hydraulic External Clamp	146 kg
44" Hydraulic External Clamp	155 kg
48" Hydraulic External Clamp	162 kg
52" Hydraulic External Clamp	70 kg
56" Hydraulic External Clamp	180 kg
60" Hydraulic External Clamp	195 kg

Hi-Lo Wedge

Hi-Lo Wedge can be used with all external cage clamps. These wedges are placed between the pipe and the clamp and beat into place to eliminate hi-lo.
